AERO WIPE™

CLEANSING WIPES AND SWABS – ALCOHOL AND ALCOHOL-FREE

- MDD Compliant
- UKCA Marked

Our **AeroWipe™ Saline Cleansing Wipes** and **Alcohol Swabs** offer a sterile cleaning solution for first aiders who are cleaning around cuts and grazes or prior injection. Their moist nature ensures a cooling sensation is applied when surface wounds are being cleaned. Fully compliant with BS 8599-1, these wipes are an essential for any first aid kit.

As well as offering gentle application, especially around sore surface wounds, the **AeroWipe™ Cleansing Wipes** are tear resistant. Against paper products, they also offer superior absorption for bleeding and weeping wounds or cleaning skin eliminating all the bacteria. Each AeroWipe™ Cleansing Wipe is individually wrapped to ensure it maintains its sterile nature until opened. These are ideal for treating and cleaning surface wounds on both adults and children, providing a very gentle option where surface wounds may feel tender.

Our **AeroWipe™ Alcohol Swabs** contain 70% Isopropyl Alcohol which is an effective antibacterial formula for cleansing the skin before injection. Alcohol acts as a disinfectant to clean and effectively remove bacteria, perfect for preparing and cleansing skin for procedures such as blood collection or inoculation of a vaccine.. Each wipe is 3cm x 3cm in size and individually wrapped in a sealed sachet for convenience.
