AERO RESCUE™

FIRST RESPONSE PRODUCTS

Aero has a full range of consumable supplies that support first response and extreme or emergency situations. From haemorrhage control to oxygen therapy and patient transport, we cover vast requirements for any emergency.

RapidStop Tourniquets | Bleed Kits

Award-winning, rapid application tourniquet that maximises the chances of survival. RapidStop® represents a haemostatic solution with military-grade ruggedness, all age suitability, superior single-handed application and the fastest average occlusion time.

FirstCare Emergency Bandages

FirstCare's selection of bandages cover a variety of wounds, are sterile, vacuum sealed and have a best-in-class 8-year shelf life. The Emergency Bandage® is a non-pneumatic pressure bandage that has been the standard of care for haemorrhage control.

Oxygen Therapy

AeroRescue offers a range of advanced resuscitation and oxygen therapy equipment for first response situations and safe application of essential CPR.

Stretchers & Emergency Transport

AeroRescue Stretchers are a light-weight high strength solution for many and varied patient recovery situations. Available in a variety of designs and materials for use in a wide range of environments and applications.

Splints

Aero offers a range of splint products suitable for first response to injuries, such as the Logikal air splint range and our range of sizes of aluminium foam splints.

Training Aids

Aero offers a range of products for the first aid & first response training sector, from inhaler trainers to training manikins to ensure an effective learning experience.
