

HOT COLD COMPRESSION CUFF

- ✓ MDD Compliant
- ✓ UKCA Marked & CE Marked

The AeroCool™ Velcro Compression Cuff is a compression holster designed for use with the AeroCool™ reusable gel hot and cold pack. A combination of these products can provide effective temporary pain relief from numerous conditions and injuries, reduce and minimise swelling, and ease joint and muscle pain. The AeroCool™ Velcro Compression Cuff includes a holster for holding an AeroCool™ reusable gel hot and cold pack as well as an adjustable compression strap which fits tightly over muscles and joints including the elbow, knee and back. The hot or cold pack fits easily into the holster and the adjustable strap delivers compression and support to the specific area.

AVAILABLE IN:
