

BLUE STRAPPING TAPE

- ✓ MDD Compliant
- ✓ UKCA Marked & CE Marked

AeroPlast™ Visual Tape is recommended for strapping and supporting joints. It can also be used as dressing retention to keep swabs or pads in place. Its vibrant blue colour offers high visibility for users and aligns with food health and safety requirements. The AeroPlast™ Visual Tape is also available as part of the Surefill™ instant refill programme, which offers easy and simple refill solutions for first aid kits. The tape can be used for strapping and supporting aching joints or to secure dressings and swabs that cover surface wounds. It offers users optimal support and comfort upon application. Individual packs contain 1 AeroPlast™ Visual Tape, suitable for wrapping and supporting aching joints.
