

INSTANT COLD PACK

- ✓ MDD Compliant
- ✓ UKCA Marked & CE Marked

The AeroCool™ Instant Ice Pack is designed for immediate use in any emergency where cold therapy treatment is required. It is highly effective in the treatment of children's injuries such as burns and scalds. The AeroCool™ Instant Ice Pack is a practical alternative to re-usable hot and cold packs and is ready for immediate use. This product is packaged in a durable wrap which is easy to handle and patient-friendly while being tough enough to withstand the rigours of transportation and storage. The AeroCool™ Instant Ice Pack is an excellent addition to the hot and cold treatment range and provides users with a cost-effective, cold therapy treatment option. Suitable for treating swelling. It is ideal for relieving pain. Individual packs contain one AeroCool™ Hot Cold Pack suitable for relieving muscle pain and reduce swelling.
