

Modulator 
injury specific first aid

POWERED BY
AERO 

**TRAUMA
BACKPACK**

YOUR ENTIRE EMERGENCY SAFETY NET In One Ultra Rugged Backpack

The **Modulator Trauma Backpack** by Aero offers ultimate preparedness with well-organized, injury-specific first aid modules for burns, eye injuries, sprains & fractures, bleed control, and general first aid, plus an AED/CPR prep kit. Contained within a rugged, weather-resistant backpack, this kit is built to endure the most challenging conditions, making it an essential tool for any environment.

Includes an extra empty module case to add your own special supplies.

The clear window allows a quick visual check of your AED - ensuring it's in the backpack and in a rescue ready state.

A robust side pouch securely holds things like an oxygen bottle or a small fire extinguisher.

CHOOSE YOUR CONFIGURATION

Select the level of preparedness that meets your needs. Our Standard backpack provides a comprehensive, ANSI Class B compliant foundation. The Pro version upgrades to the Pro Bleed Kit, which includes hemostatic and chest seal dressings for advanced hemorrhage control. For ultimate response capability, the Pro & Airway backpack adds a complete airway and resuscitation module to the Pro configuration.
